

A Venn diagram illustrating the relationship between three theoretical models. A large olive-green circle represents the 'MSSM' (Minimal Supersymmetric Standard Model). Inside this circle is a smaller orange circle representing the 'Simplified model'. The orange circle has a thick red border. At the bottom of the orange circle, the text 'pMSSM' is written in red. In the center of the orange circle is a small black dot. The text 'Simplified model' is written in black in the center of the orange circle.
